

Every Dollar You Give — Followed by Prayer & Proof

A plain-language guide for Pentecostal missionaries: sending education funding to the world's most complex humanitarian crisis — DRC's church communities in Kivu, Ituri, and Kasai — with zero fees, zero theft risk, and full accountability.

"Even though I walk through the darkest valley, I will fear no evil, for you are with me." — Psalm 23:4 | GetSmart Token walks with DRC's church in its darkest valleys.

THE PROBLEM WE SOLVE IN DR CONGO

The Democratic Republic of Congo is simultaneously home to **Africa's most vibrant Pentecostal Christianity** and the world's most complex humanitarian catastrophe. Eastern DRC (North Kivu, South Kivu, Ituri) has seen active armed conflict for 30 years, with over **100 armed groups** operating, including M23 (Rwanda-backed), ADF (ISIS-affiliated), and dozens of local militias. Physical cash delivery to eastern DRC is virtually impossible without extortion, theft, or violence.

DRC's banking system is one of Africa's weakest — less than 6% of the population has a bank account. The central bank (BCC) has no capacity to process foreign religious transfers reliably. International wire transfers routinely disappear in a multi-correspondent banking chain, losing 30–50% to fees and corruption before reaching any field worker.

FOLLOW THE MONEY — LIKE A PRAYER CHAIN

STEP 1 — HOME CHURCH (USA / BELGIUM / FRANCE / KENYA)
Donor Opens Free GetSmart Account
Like creating an email account. 5 minutes on your phone. No bank required — or link your existing account. Visit getstoken.org to sign up free.

STEP 2 — INSTANT, LIKE SENDING A TEXT
Send GST Tokens to Your Missionary
Type their GETS ID (like an email address). Press send. Arrives in under 60 seconds. **No multi-correspondent theft. No militia checkpoint.** 100% arrives.

STEP 3 — MISSION FIELD (NORTH KIVU / ITURI / KASAI)
Missionary Receives & Distributes
Distributes to Kivu conflict zone churches, Ituri massacre survivor schools, and Kasai community education programs — every transaction permanently on blockchain.

STEP 4 — YOU SEE IT HAPPEN
Track Your Gift to the Child
Your dashboard shows the full journey: donor → missionary → school → student. Every step timestamped and tamper-proof on blockchain.

WHAT YOUR GIFT FUNDS

Conflict Zone Churches
North & South Kivu

IDP Camp Schools
5M+ displaced people

Trauma & Healing
Massacre & rape survivors

Community Bible Schools
Kasai & Katanga

Vocational Programs
Mining community alternatives

Women & Children
Gender violence survivors

WHY GST IS DIFFERENT IN DR CONGO

Eliminates Multi-Correspondent Banking Loss
International wire transfers to DRC pass through 4–6 correspondent banks, each taking fees, with the final delivery often handled by unreliable local agents. GST arrives peer-to-peer in 60 seconds — no correspondent chain, no 30–50% loss, 100% delivered.

No Militia Checkpoint Risk
Physical cash delivery to Kivu and Ituri passes through armed militia checkpoints where extortion of Christian organizations is routine. GST transfers arrive digitally to Sponsor church leaders — no physical cash crosses any militia-controlled territory.

Reaches 5M+ Displaced People
DRC has more internally displaced people than any country in Africa — over 5 million, concentrated in Kivu and Ituri. GST reaches church workers in IDP settlements wherever a mobile network exists, without bank infrastructure that simply doesn't exist in most displacement zones.

Built by a 501(c)(3) Nonprofit
GetSmart Token is governed by the Digital Financial Aid Corporation — a US 501(c)(3). Its mission is education. DRC's church is extraordinary. They align perfectly at getstoken.org.

Four Steps from Your Pew to a Kivu Child's Classroom

1

Download & Sign Up

Visit getstoken.org and sign up with your email. Free, takes 5 minutes. Your church administrator can help. No blockchain knowledge required.

2

Add Funds

Link your debit card or bank account. Convert dollars to GST tokens — digital offering envelopes that only go where you address them.

3

Send to Your Missionary

Your DRC missionary or Nairobi/Kinshasa Sponsor hub has a GETS ID. Type it in, add a prayer note, press Send. No militia checkpoint. No correspondent bank loss. 100% arrives in 60 seconds.

4

Watch It Work

Your app shows a live trail — like package tracking for a gift. See which program it funded and which community it serves.

Protection in DR Congo's Mission Field

- ✓ No multi-correspondent banking chain — GST arrives peer-to-peer, bypassing the 4–6 bank correspondent system that loses 30–50% of wire transfers before they reach DRC field workers
- ✓ No militia checkpoint risk — digital GST transfers to Sponsor church leaders cannot be physically extorted or stolen by the 100+ armed groups operating in eastern DRC
- ✓ Reaches IDP displacement zones — only requires a mobile phone and data signal, bypassing the formal banking infrastructure that barely exists in conflict-affected Kivu and Ituri
- ✓ NFT credentials for displaced children — blockchain certificates travel with displaced families wherever they move, providing the first portable educational identity for 5M+ DRC IDPs
- ✓ Nairobi hub model available — East Africa Sponsor coordinators can safely manage DRC distribution from Nairobi without physically crossing active conflict zone borders

★ For Church Coordinators

- ★ **Kinshasa or Nairobi Hub:** Your Sponsor church in Kinshasa or Nairobi manages the GST treasury and distributes to verified DRC field missionaries — no one carries cash into Kivu or Ituri
- ★ **Emergency Response Fund:** Designate GST for immediate response to militia attacks — church workers and massacre survivors can receive same-day support within 60 seconds of Sponsor authorization
- ★ **Designated Giving:** Tag gifts "North Kivu IDP School" or "Kasai Bible School" — each tagged separately, blockchain-verified, fully transparent
- ★ **Tax Receipts:** US-compatible charitable giving receipts automatically issued by getstoken.org for all donor contributions
- ★ **Portable Credentials:** Issue NFT certificates to displaced teachers and students — credentials that travel wherever displacement takes them, permanently outside DRC's legal jurisdiction

DR Congo — Heart of Africa: Why GST Is Strategically Essential Here

- ♦ DRC is home to **Africa's largest Catholic population and one of its fastest-growing Pentecostal movements** — Kinshasa's Pentecostal mega-churches have millions of members. Yet the eastern provinces where most mission need exists have been in continuous armed conflict for 30 years, with conventional financial infrastructure essentially non-existent.
- ♦ DRC's mineral wealth — cobalt, coltan, gold — has funded 30 years of armed conflict in which **over 6 million people have died**. GST-funded vocational training programs that offer alternatives to artisanal mining labor (agricultural cooperatives, tailoring, construction) provide Kingdom-centered pathways out of the conflict economy for young men most at risk of militia recruitment.
- ♦ The eastern DRC conflict has produced the **world's largest IDP crisis in Africa** — over 5 million displaced people in Kivu, Ituri, Tanganyika, and Maniema provinces. Church workers are the most trusted institutions in displacement camps, providing the only consistent education available, but they receive almost no reliable external funding.
- ♦ The Congolese diaspora in **Belgium, France, the US, and Kenya** includes some of the most theologically sophisticated and mission-motivated givers in the global church — but they have no reliable way to get support to eastern DRC field workers. GST's correspondent-bank-bypassing structure solves the problem that has frustrated diaspora giving for decades.

† Common Questions from Home Church Members †

"How does GST reach workers in a conflict zone with no infrastructure?"

GST requires only a mobile phone and data signal — both of which exist even in conflict-affected Kivu and Ituri thanks to mobile network coverage that has outlasted every other institution. Kinshasa or Nairobi Sponsor coordinators distribute from outside the conflict zone to verified field leaders who receive digitally.

"Can we reach the 5 million displaced people in the IDP camps?"

Yes — through church workers already embedded in the camps. Your GST goes to your verified Sponsor who distributes to camp church teachers. Your dashboard shows which camps received support and how many learners are enrolled, with permanent blockchain verification.

"What happens if a field worker is caught in an attack?"

All student and teacher NFT credentials are stored on the Ethereum blockchain — entirely outside DRC's physical and legal jurisdiction. Even if a school is burned and every staff member displaced, every child's educational record survives permanently and can be verified from anywhere in the world.

"We've sent to DRC before and lost money to bank fees and corruption — is GST different?"

Fundamentally yes. Conventional wire transfers to DRC lose 30–50% through correspondent banking chains. GST is peer-to-peer — your tokens go directly to the GETS ID of your Sponsor coordinator in under 60 seconds. No correspondent bank, no local agent, no reduction. 100% delivered, blockchain-verified.
