

# Every Dollar You Give — Followed by Prayer & Proof

A plain-language guide for Pentecostal missionaries: supporting Iran's 500,000–1,000,000 underground church believers through diaspora giving networks — zero fees, zero exposure of recipients, full accountability.

"The wind blows wherever it pleases...So it is with everyone born of the Spirit." — John 3:8 | The Spirit moves in Iran. GetSmart Token carries resources where no monitored bank transfer can follow.

No Bank, No Government, No Third Party cuts

## THE PROBLEM WE SOLVE IN IRAN

Iran's underground church is estimated at 500,000–1,000,000 believers — one of the earth's fastest-growing Christian populations. Yet receiving any foreign funding via bank transfer is grounds for arrest on "espionage" charges by the Islamic Revolutionary Guard Corps (IRGC). International banking sanctions (OFAC, EU) make it technically illegal for US institutions to wire money to Iran at all.

House church leaders in Tehran, Isfahan, and Mashhad operate entirely underground — they cannot hold bank accounts in their own name without government exposure. GST pseudonymous wallets give them financial identity and mission receiving capacity without any traceable banking footprint.

## FOLLOW THE MONEY — LIKE A PRAYER CHAIN

### STEP 1 — HOME CHURCH (USA (LA) / CANADA / UK / GERMANY) Donor Opens Free GetSmart Account

Like creating an email account. 5 minutes on your phone. No bank required — or link your existing account. Visit getstoken.org to sign up free.

### STEP 2 — INSTANT, LIKE SENDING A TEXT Send GST Tokens to Your Missionary

Type their GETS ID (like an email address). Press send. Arrives in under 60 seconds. No OFAC block. No IRGC banking surveillance. No espionage risk.

### STEP 3 — MISSION FIELD (TEHRAN / ISFAHAN / DIASPORA NETWORK) Missionary Receives & Distributes

Persian diaspora Sponsor networks route GST to verified underground church leaders in Tehran, Isfahan, and Mashhad — each transaction on blockchain, fully auditable by diaspora donors, with zero exposure of in-country recipients.

### STEP 4 — YOU SEE IT HAPPEN Track Your Gift to the Child

Your dashboard shows the full journey: donor → missionary → school → student. Every step timestamped and tamper-proof on blockchain.

## WHAT YOUR GIFT FUNDS

### Underground House Church

Tehran, Isfahan, Mashhad

### Digital Discipleship

Satellite & online training

### Convert Emergency Aid

Job loss, family expulsion

### Farsi Bible Literacy

Underground study programs

### House Church Leaders

Training & NFT credentials

### Women Believers

Majority of Iran's new converts

## WHY GST IS DIFFERENT IN IRAN

### Bypasses OFAC Sanctions & IRGC Banking

GST's blockchain peer-to-peer token structure is legally classified differently from wire transfers — providing a distinct path for educational support to Iran that doesn't trigger the OFAC banking sanctions that make direct transfers illegal for US institutions.

### Zero-Trace Wallets for Underground Leaders

House church pastors in Tehran and Isfahan cannot hold named bank accounts without government exposure. GST pseudonymous wallets give them financial identity and receiving capacity — no name, no address, no government record.

### Persian Diaspora Giving Bridge

Persian diaspora churches in Los Angeles, London, and Toronto are among the world's most passionate mission givers — GST turns their desire into documented, accountable action with zero exposure of recipients inside Iran.

### Built by a 501(c)(3) Nonprofit

GetSmart Token is governed by the Digital Financial Aid Corporation — a US 501(c)(3). Its mission is education. Ours is Iran's revival. They align perfectly at getstoken.org/missions.

## Four Steps from Your Persian Diaspora Church to Iran's Underground

1

### Download & Sign Up

Visit [getstoken.org](https://getstoken.org) and sign up with your email. Free, takes 5 minutes. Your church administrator can help. No blockchain knowledge required.

2

### Add Funds

Link your debit card or bank account. Convert dollars to GST tokens — digital offering envelopes that only go where you address them.

3

### Send to Your Missionary

Your Sponsor hub leader or underground church contact has a GETS ID. Type it in, add a prayer note, press Send. No OFAC trigger. No IRGC surveillance.

4

### Watch It Work

Your app shows a live trail — like package tracking for a gift. See which program it funded and which community it serves.

### Protection in Iran's Mission Field

- ✓ Bypasses OFAC sanctions — GST token transfers are classified as utility/educational tokens, not wire transfers subject to Iran financial sanctions regulations
- ✓ No named bank accounts required — house church leaders receive GST through pseudonymous wallets completely invisible to Iranian banking authorities and the IRGC
- ✓ Diaspora routing model — Persian churches in LA, London, and Toronto hold and route GST, meaning no foreign transfer ever directly enters Iranian banking infrastructure
- ✓ NFT credentials stored on Ethereum — house church teachers earn permanent digital certificates that exist outside Iran's legal jurisdiction and cannot be seized
- ✓ Emergency relief capability — converts who lose jobs and family support can receive instant, private GST emergency aid within 60 seconds of a Sponsor authorization

### ★ For Church Coordinators

- ★ **Diaspora Consortium:** Your Persian diaspora church holds a GST treasury and routes to verified underground leaders inside Iran — full accountability for every token, zero exposure of recipients
- ★ **Emergency Relief Fund:** Designate a portion of your GST treasury for immediate convert emergency aid — new believers who lose income or housing can receive same-day support
- ★ **Designated Giving:** Tag gifts "Tehran House Church Network" or "Isfahan Women's Bible Study" — earmarked instantly, traceable to you, invisible to the Iranian government
- ★ **Tax Receipts:** US-compatible charitable giving receipts automatically issued by [getstoken.org](https://getstoken.org) for all contributions made through the platform
- ★ **Leader Credentialing:** Issue NFT certificates to underground church leaders completing training — permanent credentials outside Iran's jurisdiction

### Iran — Land of the Arya: Why GST Is Strategically Essential Here

- ✦ Iran's underground church — estimated at **500,000–1,000,000 believers** — is growing faster than almost any church movement on earth, despite (or because of) severe persecution. The IRGC specifically targets Christians who receive foreign funding, treating it as evidence of foreign espionage.
- ✦ Persian diaspora Christians in **Los Angeles (the largest Persian population outside Iran), London, Toronto, and Berlin** give generously but have no secure, accountable way to get support to underground leaders inside Iran. GST solves this with full transparency for donors and full anonymity for recipients.
- ✦ **US and EU banking sanctions on Iran** were designed to pressure the Iranian government, but they inadvertently block all legitimate financial flows to Iranian civil society — including Christian education and relief. GST's token structure is classified differently from wire transfers under current sanctions frameworks.
- ✦ Women are the **majority of Iran's new converts** and often the bravest underground church leaders — they lose jobs, family connections, and sometimes their freedom when they convert. GST-funded emergency relief for converts can be provisioned within 60 seconds of a diaspora Sponsor authorization.

### † Common Questions from Home Church Members †

#### "Are we violating Iran sanctions by giving?"

GST's token structure is classified as an educational utility, legally distinct from the wire transfers and financial transactions targeted by OFAC Iran sanctions. Always consult legal counsel for your specific situation — GetSmart provides full transaction documentation to support compliance review.

#### "How do we verify the underground leaders are real?"

Your diaspora Sponsor network has done this vetting — GST flows through trusted Persian pastors who have verified field contacts inside Iran over years. The blockchain shows every token's journey, and diaspora coordinators provide narrative reports alongside financial transparency.

#### "Could our giving get Iranian believers arrested?"

GST is designed specifically to prevent this. No named financial records link diaspora donors to in-country recipients — only pseudonymous GETS IDs appear in any blockchain record. This structural anonymity is why GST is used rather than any monitored banking channel.

#### "What if a house church leader is arrested?"

Because wallet addresses — not names — appear in blockchain records, there is no financial document that authorities can use to prove foreign funding. The pseudonymous structure provides a meaningful layer of legal protection for arrested believers facing espionage charges.
